REPORT

Software Freedom Day 2010

Kelompok Studi Linux University of Budi Luhur

Jakarta, Indonesia

1. **A cup of tea from the "Penguin Crazy"**

Top thanks to the grace of God Almighty, team can complete the report on Software Freedom Day 2010. And with the spirit of sharing of Science, Software Freedom Day event is still executed every year by Kelompok Studi LINUX University of Budi Luhur (KSL-BL). Software Freedom Day celebrations which are held by Kelompok Studi LINUX University of Budi Luhur (KSL-BL) the theme of "Graphic Design and Animation" titled "Celinguk Celingak Warna Pinguin." We are also aware, this event not have been possible without the moral support and material.

We also thank the stakeholders who have supported and helped in the implementation of Software Freedom Day, including:

- Software Freedom Internasional (SFI), who has fully supported the event which was held by Kelompok Studi LINUX University of Budi Luhur.
- who has been providing facilities to carry out this activity.
- Government agencies :

  Kementerian Komunikasi dan Informatika

  Kementerian Riset dan Teknologi

  Indonesia Go Open source (IGOS).
- Private Institutions :

  Lembaga Pendidikan dan Pengembangan Profesi Terpadu (LP3T) Nurul Fikri,

  Info LINUX Magazine

  Yayasan Penggerak LINUX Indonesia (YPLI).
- Canonical

2. Activity Summary

Approximately more than 450 groups celebrate Software Freedom Day this year on September 18, 2010. Software Freedom Day is an annual event celebrated by the entire circle / group who deals by Free and Open Source Software. Software Freedom Day event was also used to relieve ignorance and bring benefits to all sectors of society.

In Jakarta, the Software Freedom Day has been celebrated since 2003 by Kelompok Studi LINUX University of Budi Luhur (KSL-BL). KSL-BL organized several events to welcome the Software Freedom Day this year 2010, with the theme of "Graphic Design and Animation", entitled "Celinguk Celingak Warna Pinguin." The event was held at the University of Budi Luhur, Jakarta, Indonesia. The event is also supported by the institutions of government, private agencies, educational institutions, mass media and LINUX community.

One of the government agencies is Agus Sediadi as Head of Strategic Industrial Science and Technology Transfer from Kemeterian Riset dan Teknologi participated in enliven Software Freedom Day.
While the private agency, who is also the founder Rusmanto Maryanto Yayasan Penggerak LINUX Indonesia (YPLI) and magazine editorial director “Info LINUX”.
From among activists working in the field of graphic design and animation, including Hiza Ro, Dani Syahban and Danil Syahrizal.

This year, the first time KSL-BL enliven the Software Freedom Day with the theme of "Graphic Design and Animation", with the previously discussed about the networking and some other software. Sharing knowledge freely is our main mission, so that through this activity we can reduce the duping, by continually using the operating system or sofrware that free and open source software, hopefully the target of this event can understand and have a high desire to learn.

Activities included in this event are workshops, competitions and seminars. Since June 2010, we have held a welcome ceremony held Software Freedom Day on Saturday, September 25, 2010 at 09.30 - 16.00. From the data we have collected the highest number of participants and visitors to this day in celebration of Software Freedom Day (The number of workshop participants, competitions and seminars).

When we become one of the best winner in the event and this year, we hope this event can continue to grow and attract public attention so that healthy competition can continue to be built, we also hoped that the event, free and open software can become opportunities and bring benefits for the public sector.

3. Introduction

Kelompok Studi LINUX University of Budi Luhur (KSL-BL) presented at the celebration of Software Freedom Day 2010 with the theme of "Graphic Design and Animation". This is supported by institutions of government, private agencies, educational institutions, mass media and LINUX community.

3.1 Software Freedom Day

Software Freedom Day is a series of activities regarding software development in the world of Information Technology based on open source. Software Freedom Day is familiarly called SAFREEDA It also aims to promote the community in creating new facilities that do not lose quality with existing technologies. In general series of Software Freedom Day activities include the problems faced by the world's information technology and solutions that can be open to new ideas that foster creativity of each individual or group.

Software Freedom Day include seminars and workshops as well as race-themed graphic design and animation, applications used, including: the GNU Image Manipulation Program (GIMP), Inkscape and Blender. Software Freedom Day held in September 2010 at the University of Budi Luhur. Target goal of this event including the Student: High School/ Vocational High School, college student and Labor : Servants and Private Employees.

Logo / icon Software Freedom Day KSL-BL includes 3 sides, namely "S" with the color Yellow, "F" in blue and "D" in red. Preferred colors are basic colors that can be integrated so that it becomes a much more beautiful color. With kubusnya shape, the logo is significant that one side can be seen all sides. Although the form kubusnya not very visible (transparent), the form was intended to be viewed from many sides, whether from front, rear, right, left, bottom or top.

3.2 Celingak Celinguk Warna Pinguin

"Celingak Celinguk Warna Pinguin" is the theme of the seminar which was held on Saturday, September 25, 2010 at the University of Budi Luhur, Jakarta, Indonesia. Themes "Celingak Celinguk Warna Pinguin" taken from all the creative ideas the committee is involved in the implementation of this event, namely the influence behind the black-white color of the "Tailor Coding".

"Celingak – Celinguk" is another word for people who are looking for something by stealth or sneak without changing the view in focus, certainly in terms of positive.
"Warna Pinguin" colorful is created from the imagination of the penguin with the changing views of black and white into a rainbow with a variety of beautiful colors.

Some people argue, that Linux is not just a program that will look beautiful because it is not accompanied by an application / software that is able to entertain and provide enjoyment of art lovers in Indonesia in particular. We want to change the public mindset about Linux, that Linux can compete in the world of graphic design and animation.

We called our team "Penguin Crazy", for thinking that far ahead to see opportunities and can provide opportunities contribute energy and ideas to build a nice FOSS world.

3.3 Kelompok Studi Linux – University of Budi Luhur

Kelompok Studi Linux University of Budi Luhur stand of KSL-BL is a student research group in information technology, and FOSS (Free and Open Source Software) within the scope of the University of Budi Luhur. KSL-BL is known by many groups of users of GNU / Linux and other FOSS. KSL-BL is also a place of learning for beginners and those already studying LINUX self-taught or received training about LINUX.
Until now, KSL-BL board filled with about 30 people, and Calan 20 people as new members.

By always introduce LINUX particularly in the University of Budi Luhur, KSL-BL has been able to have space in the heart of students University of Budi Luhur as an alternative and

solution to overcome the technological developments. KSL-BL has also launched a distro called "BLGOS" and has been disseminated on the Universitas Budi Luhur, although still a few computers that have used the Linux operating system but we continue to try to introduce the application based on free software and open source.

4. Statistics

- Team : 14 people
- Duration
  * Seminar : 8 hours
  * Workshop : 4 day
- Visitors
  * Seminar : 120 people (college student University of Budi Luhur)
    : 37 people (students of High School / Vocational High School)
    : 21 people (general)
    : 11 people (manager / senior KSL-BL)
  * Workshop : 28 people (college student University of Budi Luhur)
    : 15 orang (college student from Institut Teknologi Indonesia)
  * Perlombaan : 25 people (via http://sfd.ksl-bl.or.id/)
- CD
  * Ubuntu 10.04 : 200 disk
  * BlankOn Ombilin : 200 disk
  * ZenCafe : 100 disk
  * Ubuntu 10.04 eksklusif : 35 disk (from canonical)
- Info Linux Magazine : 300 pieces
- Accesories : 50 pieces

5. Preparation

Preparing to celebrate Software Freedom Day, we visited some of the University / Institute, High School and Vocational High School in South Jakarta wiliyah. The visit was intended to introduce free software and open source among the young.

5.1 Meeting

Meetings held 2 times a month on the first 4 months since the vote that the team will host Software Freedom Day 2010, and 4 times a month in the last 3 months ahead of Software Freedom Day.

Meetings contains instructions / tasks that must be implemented in every member of the team that served a specific division, and report progress and obstacles that occur in the task as a team member.

The meeting also aims to provide information that is being developed in the general environment, whether the scope of Information Technology as well as information that's hot on talk about, in order to become reference material for general desire to know the team.

5.2 Team

The team consists of 14 people with different positions in the draft the Software Freedom Day event 2010. In the composition of the team, division artwork is not determined by personal / individual but the responsibility for all team members. Team members who formed a member of Budi Luhur LINUX Study Group. Here we are:

a. Chrisna Dwi Suryani

b. Darius Alexander Go Reinnamah

c. Cicilia Lestari

d. Dede Ismail

e. Ari Widya Putra

f. Mochammad Irvan Bachtiar Ilhack

g. Luthfi Farabi

h. Naomi Christy November

i. Adityas Yunita

j. Alfie Ilhamsyah

k. Ahmad Syafrudin

l. Sukendar

m. Nurul Fitri

n. Hendri Alfian

5.3 Secretary

Secretarial tasks of making the letter and attachments necessary to permit use campus facilities Budi Luhur University. In addition, the secretary noted all the results of the meeting and concluded the plan until the completion of this event.

5.6 Finance

Treasurer as the holder control over the money obtained from the results of the fundraising team, the management of KSL-BL and Senior KSL-BL as well as money from the working party (the sponsor).

5.7 Division

a. Publications Division

Division in charge of disseminating information about the publication of Software Freedom Day to the public, for all circles to participate in these activities, while also being able to understand and recognize the Free Software and Open Source.

Dissemination of information through website http://sfd.ksl-bl.or.id made by KSL-BL, flayer posters and distributed to schools and ksmpus around the area of Jakarta, Indonesia. In addition, the publications division also apply for the cooperation and sponsorship to the institutions of government and private agencies.

b. Events Division

Division events, responsible for managing the schedule events during the preparation until the completion of the event. Events Division also regulates and determines the relevant parties to participate in enliven this event, including college officials, professors and representatives from government agencies that support this event.

c. Documentation Division

Documentation division in charge of collecting all information from all activities that have been implemented by all divisions, making accountability report to be submitted to the board the Linux Study Group University of Budi Luhur.

Documentation division is also tasked to capture all forms of activities undertaken in this

event, either in formal or anformal condition. Preservation activities, including by taking pictures (photographs) and recording (video).

e. Decorating Division

Division in charge of set decoration seating positions of participants, speakers and moderators, and adjust the position of the laying of accesories Software Freedom Day, such as the laying of the media campaign one banner.

d. Equipment Division

Equipment division in charge of preparing all the tools needed in the event. The tools needed depend on the filing of divisional events, any tool that will be needed in this event, in other words, the equipment division in coordination with the division of events to address the lack of provision of supporting this event.

Among them, the division of equipment require a written request permission to borrow the facility and its contents and equipment to support the event became more comfortable and conducive.

Besides requiring mailers, jugamembutuhkan equipment division team to adjust the position of the right decorations that have been determined by the division decor.

f. Consumption Division

Division is responsible for providing food consumption, but it mmbagikan food and provide a place for team members, participants, resource persons, guests and moderators to eat a dish that has been provided.

5.3 Shape Activities

a. Workshop

Workshop is an introduction for beginners as well as early learning as well as those already studied LINUX, to use a Linux-based operating system and its application in it. The workshop was held before the big event of the celebration of Software Freedom Day 2010.

The workshop aims to seminar participants can be much more familiar with at least on

Linux, so when the event magnitude, the participants get an overview of Linux and the application which was adopted as the theme.

Workshop invites all walks of life who live in Jakarta and surrounding areas. Workshop material that is about graphic design and animation by using free software, such as the GNU Image Manipulation Program (GIMP), Inkscape and Blender.

b. Seminar

Software Freedom Day festive event culminates with a seminar themed "Color Celinguk Celingak Pinguin." Why is the seminar? Since the team decided to invite the founder-founder in the field of graphic design and animation from outside the area, and through this seminar the participants can talk with the founder who previously had never met them or they had never met.

Through this seminar, the team hopes the participants and resource persons to share the experience once they acquire knowledge outside of formal learning LINUX.

5.4 Schedule of Events

No	Events			Place
		Date	Times	
1	Workshop I a. GNU Image Manipulation (GIMP)	Saturday, June 19, 2010	09.30 – 15.00 WIB	University of Budi Luhur
2	Workshop II b. Inkscape dan Blender	Monday, June 21, 2010	09.30 – 15.00 WIB	
3	Technical Meeting	Saturday, August 21, 2010	09.30 – 12.00 WIB	
4	The deadline for the collection of works	Sunday - Saturday, 1 August to 23 September 2010	00.00 s/d 15.00 WIB	
5	Competition “Penguin Crazy”	Monday - Tuesday 20 to 21 September 2010	09.30 – 16.00 WIB	
6	Workshop III			

	a. GNU Image Manipulation (GIMP) b. Inkscape c. Blender	Wednesday-Thursday, 22 to 23 September 2010	09.30 – 16.00 WIB	
7	Seminar	Saturday, September 25, 2010	09.30 – 16.30 WIB	

6. Media Communication Information and Promotion

6.1 Media Communication Information

Media communication of information used such as through email and mobile.

a. Email

Media communication via email is a medium of communication that can be used to contact members of the team by asking or searching for information about Software Freedom Day 2010 can send messages to:

safrida.2010@gmail.com

b. Mobile

Media communication via mobile possible for participants to get information faster, which can contact:

Mochammad Irvan Batchiar Ilhack (Ipang) : 0899 8293 130 or 021 9792 7492

Ahmad Syafrudin (Rudi) : 0856 7371 729

6.2 Media Promotion

6.2.1 Social Networking Sites

a. Facebook

Friends of Free Software and Open Source, especially in the area of Jakarta, is very enthusiastic with this social jejaing site. So the team took a chance on social networking site Facebook to inform the activities to be implemented ahead of Software Freedom Day 2010 which was held by the Study Group of the University of Budi Luhur LINUX. Namely through:

http://www.facebook.com/safrida2010

b. Twitter

Besides Facebook, the team also took the initiative to disseminate information about Software Freedom Day through Twitter, but the team did not make a special account in use, the team members spread through personal accounts.

6.2.2 Website

The team also disseminate information via the website, namely: http://sfd.ksl-bl.or.id , other than that the team also set up an account on the website KSL-BL : http://ksl-bl.or.id .

7. Cooperation and Sponsorship

7.1 Cooperation

Parties involved:

1. University of Budi Luhur

In addition to providing facilities in the form of places, from the University of Budi Luhur provide some souvenirs to the speakers that fill the show. Universitas Budi Luhur also provide a place to publicize this event.

2. B'FORCES (Bulletin Free and Open Source Software)

Bulletin of Free and Open Source Software is a bulletin issued by the group each month LINUX Studies. Through B'FORCE, the team was able to spread widely to the public with information, particularly student-student University of Budi Luhur.

B'FORCE also help provide a place / stand for open enrollment to attend workshops and seminars.

3. Kelompok Studi Linux University of Budi Luhur

Kelompok Studi LINUX University of Budi Luhur (KSL-BL) give some cash to the team, as a form of participation in this activity.

7.2 Sponsor

The sponsor made up of several agencies, from government and private agencies :

Government agencies:

7.2.1. Kementerian Komunikasi dan Informatika

Ministry of Communications and Information Technology is a government agency that participates in penyelenggraan Software Freedom Day. In addition to moral support, the Ministry of Communications and Information Technology also provides material support such as providing :

* 200 CD/DVD : Ubuntu 10.04
* 200 CD/DVD : BlankOn Ombilin
* 100 CD/DVD : ZenCafe

7.2.2. Kementerian Riset dan Teknologi

Ministry of Research and Technology ministries in the government of Indonesia is in charge of science and technology are also participating in the implementation of Software Freedom Day.

Support from the Ministry of Research and Technology are:

* 50 IPTEK magazine
* Money / Cash
* Speaker: Agus Sediadi with a discussion of "Open Source in Government Policy".

7.2.3. Indonesia Go Open Source (IGOS)

Indonesia Go Open Source is a group that fought for increased use of open source software in Indonesia. Indonesia Go Open Source is a governmental agency engaged in Information Technology who also spread the ideology Free and Open Source Software.

Indonesia Go Open Source also supports the spread of Software Freedom Day 2010, organized by KSL-BL via website Indonesia Go Open Source, yaitu http://igos.web.id .

Private Institutions:

7.2.4 Yayasan Penggerak Linux Indonesia (YPLI)

Yayasan Penggerak LINUX Indonesia (YPLI) is a non-profit organization that develops Linux and other Free / Open Source Software (FOSS) software and human resources in Indonesia. YPLI participate in these activities by disseminating information to the public, and also bring Founder YPLI directly as a speaker at seminars Software Freedom Day 2010 Linux Study Group University of Budi Luhur, namely Rusmanto Maryanto.

7.2.5 LP3T Nurul Fikri

Lembaga Pengembangan Pelatihan dan Profesi Terpadu (LP3T) Nurul Fikri an institution that combine training and education in the field of Information Technology and Communications for Professional development in information technology and communications.

LP3T has the mission to be the organizer of the Institute of Education Services (Education) and Training (Training) and Professional Development of Integrated and Reliable in Indonesia by Human Resources Generate Competent (Skilled,

knowledgeable and Courtesy and Professional Conduct).

LP3T provide support by providing speakers at the seminar Software Freedom Day 2010, namely the speaker with the application materials GNU Image Manipulation Program (GIMP). Speakers are named Danil Syahrizal.

7.2.6 Info Linux Magazine

Info LINUX magazine is a print media that contains an information about the LINUX operating system. Magazine editorial director of Linux info is Chairman YPLI who also became a speaker in seminars Software Freedom Day 2010, namely Rusmanto Maryanto.

Magazine info LINUX participate in this activity by providing free of charge a number of magazines that have been LINUX Info section by LINUX Study Group University of Budi Luhur to all participants who attended the seminar.

Total magazine LINUX Info: 300 pieces.

8. (Workshop I) Sabtu, 19 Juni 2010

8.1 Event

Form of activity that is done the workshop. This activity is intended to provide a brief explanation to the participants. The contents of these explanations on learning graphic design and animation using the GNU Image Manipulation Program (GIMP). Workshop invites all walks of life who live in Jakarta and surrounding areas. In practice, the workshop was attended by university students Budi Luhur University, mahasisa-Indonesia Institute of Technology student, and teacher / staff Budi Luhur University.

The workshop team in making provisions with the dominance of Rp. 5000, with a workshop so participants get a CD / DVD Linux Gamers and PIN. Some team members are not

involved in the workshop, selling stickers to add Linux Powered previously unknown income will be sufficient.

8.2 Composition Workshop

a. Preparation

Preparation held at 09.00 am (WIB), in opening the workshop, which took place outdoors, the team provides:

- 10 pcs table
- 20 pcs chairs
- 1 piece of LCD Projector
- 1 piece Sound System
- 3 pieces computer
- 3 pieces computer

Preparation takes about 20 minutes to move the equipment in place of execution.

b. Opening

The opening is opened by Cicilia Lester and Naomi Christy November as well as a speaker in the workshop. The opening was reported at 9:50 pm at Ground Floor Unit VI Budi Luhur University.

c. Discussion

It has been determined that the dangkat theme in celebration of Software Freedom Day 2010 by the Linux Study Group is a graphic design and animation. Cicilia and Naomi Christy November to submit applications used in the manufacture of graphic design and animation using the GNU Image Manipulation Program (GIMP) 2.6.

Submission of material was first presented by Cicilia Lester at 10:00 am and then by Naomi Christy November. Cicilia Lester explained using the tutorial that he had and he got some internet memalui, Cicilia Lester convey how to use GIMP in image editing.

In his explanation Cicilia Lester did not seem in a hurry, he has a purpose for the workshop participants to fully understand the workings of GIMP, then in the delivery Cicilia Lester attention to each participant that difficulty, as well as Naomi Christy November, in addition

to operating the slide (use Open Office 3.2) displayed, sometimes Naomi Christy November helped explain the difficulty to each participant.

Some of the material presented, namely:

1. Basic explanation about the GIMP
2. Selective Color
3. Cubism Color
4. Abstract Wave Effect
5. Lightsaber Effect
6. Neon Light

d. Cover

Workshop ended at 12:15 pm which was closed by Naomi Christy November. And distribute a CD / DVD Linux Gamers and PIN.

9. (Workshop II) Senin, 21 Juni 2010

9.1 Event

Form of activity that is done the workshop. This activity is intended to provide a brief explanation to the participants. The contents of these explanations on learning graphic design and animation using Inkscape and Blender. Workshop invites all walks of life who live in Jakarta and surrounding areas. In practice, the workshop was attended by university students Budi Luhur University, mahasisa-Indonesia Institute of Technology student, and teacher / staff Budi Luhur University.

The workshop team in making provisions with the dominance of Rp. 5000, with a workshop so participants get a CD / DVD Linux Gamers and PIN. Some team members are not involved in the workshop, selling stickers to add Linux Powered previously unknown income will be sufficient.

9.2 Composition Workshop

a. Preparation

Pimplemented ersiapan 09.15 am, in opening the workshop, which took place outdoors,

the team provides:

- 8 piece table
- 16 pieces chair
- 1 piece of LCD Projector
- 1 piece Sound System
- 3 pieces computer
- 7 pieces laptops

Preparation takes about 15 minutes to move the equipment in place of execution.

b.Opening

The opening is opened by Ahmad Syafrudin. The opening was reported at 10:00 am at the Ground Floor Unit VI Budi Luhur University.

c. Events

It has been determined that the dangkat theme in celebration of Software Freedom Day 2010 by the Linux Study Group is a graphic design and animation. Ahmad Syafrudin and Ryan Septiadi submit applications used in the manufacture of graphic design and animation using Inkscape 0:46 and then followed by Alfie Ilhamsyah with the material presented, namely Blender 2.49

Submission of material was first presented by Ryan Septiadi at 10:10 pm. While Ahmad Syafrudin operate the slide. In his explanation, Ryan Septiadi and Ahmad Syafrudi bring material:

1. Explanation of the General Inkscape
2. CorelDraw 14 vs Inkscape 0.46 « One Story

3. Quick and Easy tracing with Inkscape
4. Make Dragon Ball
5. Making a Ubuntu Logo

At 11:50 to 12:10 the participants are given time to rest, then resumed at 12:30 by Alfie Ilhamsyah with Blender, the material that was delivered:

1. Explanation of the Blender
2. Creating a 3D Modeling by example the Ubuntu logo image

d. Closing

The workshop finished at 13:30 pm which was closed by Ahmad Syafrudin and distribute CD / DVD Linux Gamers and PIN.

10. Saturday, August 21, 2010

Form of activity is Tecknical Meeting. However, these activities are not conducted due to lack of candidates who were present for the competition which was opened from the date of August 1, 2010 to 23 September 2010.

11. Monday - Tuesday 20-21 September 2010

11.1 Event

Forms of events held on that date is the race "Pinguin Crazy". Activities tesebut race as enliven the celebration of Software Freedom Day reception in 2010 by the Linux Study Group. Competition Among them:

a. Rubik
b. Open Arena
c. Tux Typing
d. Frets On Fire
e. Sudoku

In the race, the team also continues to publish the culmination of the celebration of Software Freedom Day. The team spread the flayer and pasting posters around the place of the race.

11.2 Event Structure

a. Preparation

- 6 units table
- 12 pieces chair
- 1 piece Sound System
- 4 pieces of computer
- 4 pieces laptops
- 5 cable roll

b. Opening

The race presented by Ahmad Syafrudin on at 09.30 pm at the Ground Floor Unit VI Budi Luhur University.

c. Competition

The race seized the attention of about 20 - 30 students Budi Luhur University. The race lasted for 3 hours, until 12:30 pm.

d. Closure

The contest closed at 13.00 pm.

12. Saturday, September 25, 2010

12.1 Event

This event is the culmination of the celebration of Software Freedom Day 2010, organized by the Linux Study Group University of Budi Luhur. Forms of these activities are seminars graphic design and animation. Seminar held at the Theater Hall of the University of Budi Luhur.

12.2 Preparation

- 1 piece Sound System
- 1 pc laptops
- 1 piece of LCD Projector
- 2 pcs table
- 4 pieces chair

12.3 Composition Seminar

No	Events	Times	Information
1	Opening	09.30 – 09.35	MC
2	Greeting		
	Leader Software Freedom Day 2010	09.35 – 09.40	Chrisna Dwi Suryani

LOMBA DESAIN GRAFIS DAN ANIMASI
Ketentuan Perlombaan
File yang di kirim adalah hasil karya desain berbentuk poster atau brosur
Aplikasi yang digunakan dapat berupa :
- GNU Image Manipulation Program (GIMP)
- Inkscape
- Blender
dengan format (.svg); (.xcf); (.blend) menyertakan pula format (.png) dan menyertakan langkah-langkah pembuatan dengan format (.pdf)
File source beserta obyek-obyek dan layer-layer di dalamnya akan digunakan untuk analisa keotentikan penggunaan perangkat lunak open source dalam menghasilkan karya dan juga untuk nilai tambah atau penilaian teknis penguasaan fitur-fitur GIMP, Inkscape atau Blender.
Untuk Blender, animasi berupa animasi gambar atau animasi Gerak
Untuk GIMP pastikan layer-layer kerja Anda tidak di-merged.
Jika menggunakan obyek eksternal seperti font, pustaka SVG publik atau image (baikfoto, pola dsb.) sertakan juga file-filenya dalam attachment/ CD.
Deskripsi karya, berisikan penjelasan tentang karya yang dikirim dan cantumkan juga data peserta (nama, alamat, dan nomor telepon)
Scan kartu identitas (KTP/SIM/Kartu Pelajar)
Pada hasil karya (poster dan brosur) juga harus ditempatkan logo FOSS-ID dan KSL-BL sebagai identitas kegiatan
Setiap pendaftar diperbolehkan untuk mengirimkan lebih dari 1 karya, maksimal 3 karya.
Tema
Koas Free Software Open Source
dengan Warna-Warni Penguin
Donasi Minimal
Rp. 10.000
transfer melalui bank BCA dengan nomor rekening 7640403459
atas nama M IRVAN BACHTIAR ILHACK
Hadiri pula,
Seminar
Sabtu, 25 September 2010
Pukul 09.30 s/d selesai
Informasi dan Pendaftaran
