**This CD contains a complete multifunctional operating system for your PC.** It can be run directly from the CD without installation or change of any sort to your computer.

**Includes preconfigured software for:**
- Internet browsing and emailing
- Listening to music and watching films
- Word-processing, spreadsheets, presentations and more
- Playing 2D and 3D games
- Copying and burning CDs/DVDs
- Enhanced graphics design and photo manipulation
- Complete personalisation and configuration of your desktop
- Near immunity from viruses and adware

**Instructions for use:**
1. Place the CD in your drive and switch off your computer
2. Turn on your computer and await the start-up menu to appear*
3. Choose to 'boot' from CD (often highlighted by default)
4. Wait for your system to start up
6. Have fun exploring the desktop
7. To install permanently, find the install shortcut on the desktop
*If the start-up menu does not appear then your computer may not be set to 'boot' from CD. Refer to your computer's manual or contact support.

This CD contains Free Software. It is provided without guarantee.
